- THIS IS TRAIN

Acoustic • Strong Erosion • Rhythmic • Raw Texture • Open Structure

The rugged outdoor cousin to Springs. Train drops a few of the formalities in favour of raw texture. Here the intense natural weathering and erosion of the wood provide a strikingly effective counterpoint to its design-led framework.

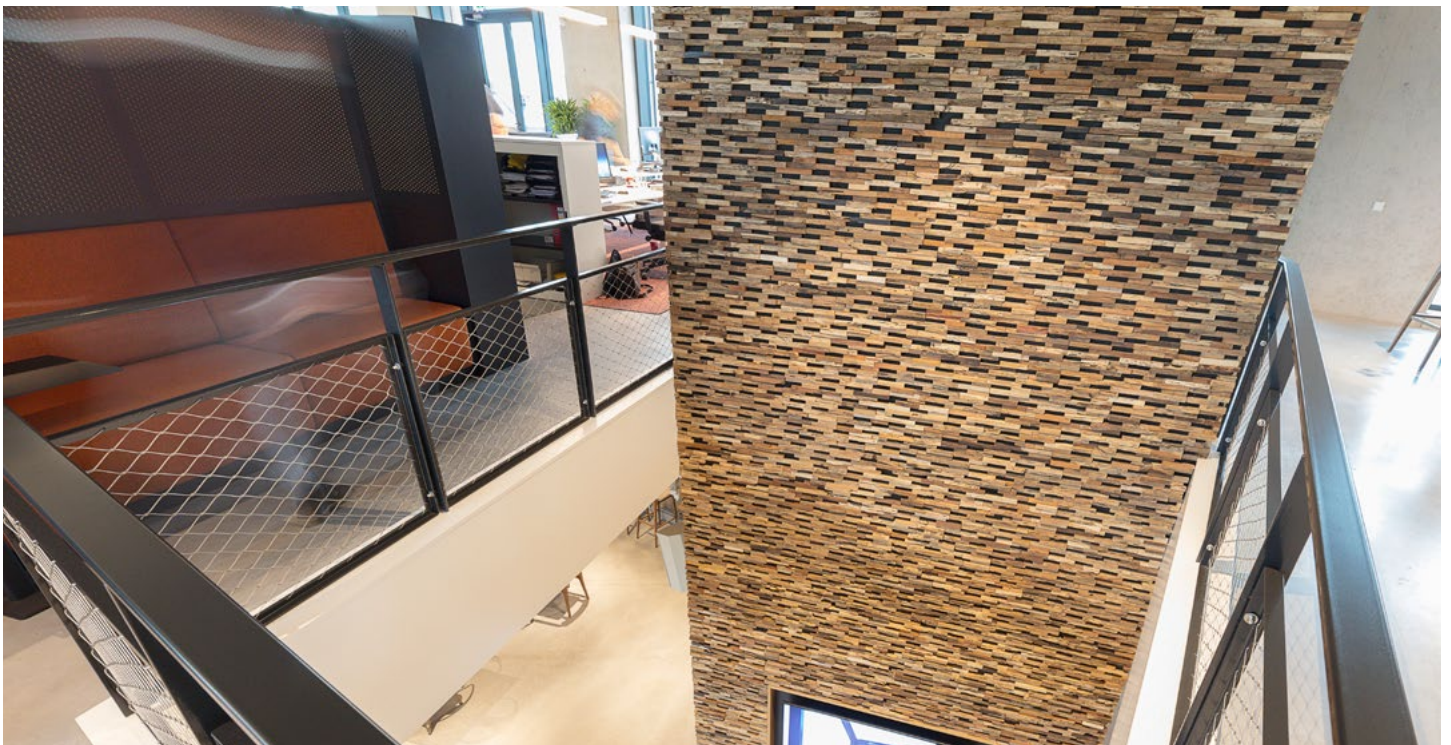

- THIS IS TRAIN

If we come across an old house that has obviously been abandoned, we contact the owner. A price for the scrap wood is arranged and the house – or what's left of is sold to us. After this it's up to us to dismantle the derelict building and give it a second life on the walls of someone else's house, restaurant, bar or hotel. Woods we source from abandoned and derelict houses come in various degrees of erosion. The amount of erosion – from light to heavy – influences the colour and hue of a piece of timber. We source this type of wood on Java. You can imagine how the tropical climate weathers the timber.

WONDERWALLSTUDIOS

MISSION

To create joyous panelling from salvaged woods
that enriches surfaces and enhances your interior.

We strive for the highest quality to produce
panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged
and upcycled, giving discarded timber a second
lease on life. Typically, we'll turn a weathered girder
into a striking collection of unique wall tiles.

It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.

We love salvaging woods, breathing new life
into something old, worn and weathered.

We love exploration and travel. We love design and
having fun with like-minded souls.

That's why we do what we do the way we do it.
