• THIS IS SAGE

Bog Oak • Exclusive • Luxury • Black And Grey Hues • Hand Whittled • Truly Special

This wise man from the wetlands has a strong personality and demands the right space. Thanks to the fact that it's been lying in peat-bog for a couple of centuries Sage is richly textured and beautifully coloured with dark shades of brown and intense black. Each piece is whittled and chiselled by our craftsmen and variations are a mark of the hand. The panels are long and slender.

We are all about joyous materials and sustainability through reclamation. Old friends and new acquaintances too, know that we never settle for second-best. Instead we always walk that extra mile to find our exclusive woods. That search for the best, those extra miles travelled have taken us deep into the mires and bogs of Eastern Europe. And the reward has made our journey and exploration more than worthwhile: Wonderwall Studios brings the past back to life with this type of handcrafted cladding from beautifully preserved, centuries-old Bog Oak.

• THE WOOD

Bog Oak is the household name for oak wood that has been buried in peat bog for hundreds and in some cases thousands of years. Peat – or turf – is a build-up of decaying organic matter. The trees, trunks and logs we reclaim are from large oak trees that were felled many moons ago by man or nature. During the centuries the wood sank ever deeper into the black mud, enriched and coloured by acids and minerals. The rich, dark shades of brown and intense blacks give Bog Oak its exclusive look.

WONDERWALLSTUDIOS

MISSION

To create joyous panelling from salvaged woods
that enriches surfaces and enhances your interior.
We strive for the highest quality to produce
panelling that will last a lifetime.

HOW

We scour the land for woods that can be salvaged
and upcycled, giving discarded timber a second
lease on life. Typically, we'll turn a weathered girder
into a striking collection of unique wall tiles.
It's a reincarnation of sorts.

WHY

We love wood and working with craftspeople.
We love salvaging woods, breathing new life
into something old, worn and weathered.
We love exploration and travel. We love design and
having fun with like-minded souls.
That's why we do what we do the way we do it.
